RAIPUR MUNICIPAL CORPORATION

SIGNIFICANT ACCOUNTING POLICIES AND NOTES TO ACCOUNTS

Background:

Urban Local Bodies (ULB) were maintaining its financial statements on cash based single entry system, and accordingly there was a limitation on the flow of information and several objectives of financial and accounting controls were not met.

With a view to bring more transparency in the process and The need for better financial recording and control systems is imperative for modern-day ULBs to function as effective and efficient institutions of public service delivery. Presently, ULBs are following the single entry cash based system of accounting, which leaves a lot to be desired for in this day of need for heightened transparency and accountability in ULB decision making.

Raipur Municipal Corporation has decided to migrate its books of accounts from present cash based single entry system to Accrual Based Double Entry Accounting system and has prepared its first ever balance sheet as at April 1, 2008, in the prescribed format and details as provided in the National Municipal Accounting Manual. ULB will follow the accounting year which begins on April 1 of every calendar year and closes on March 31, next calendar year.

B-21A Significant Accounting Policies :

(a) Fixed Assets

- Fixed Assets are stated at cost of acquisition inclusive of duties taxes, incidental expenses, erection / commissioning expenses and technical know-how fees etc. up to the date the asset is put to use, less accumulated depreciation and impairment losses, if any. Further, costs of improvement are considered in the fixed assets, if such improvement results into increase in the efficiency and original estimated life of the assets.
- Machinery spares which can be used only in connection with an item of fixed asset and whose use as per technical assessment is expected to be irregular, are capitalized and depreciated over the residual useful lives of the respective assets.
- The carrying amounts of assets are reviewed at each balance sheet date to determine if there is any indication of impairment based on external / internal factors. An impairment loss is recognized wherever the carrying amount of an asset exceeds its recoverable amount which represents the greater of the net realizable value and 'Value in use' of the respective assets. The estimated future cash flows considered for determining the value in use are discounted to their present value at the weighted average cost of capital.
- Assets awaiting disposal are valued at lower of written down value and net realizable value and disclosed separately.
- An increase in net book value arising on revaluation is credited to a separate reserve account under the Municipal fund as 'Revaluation Reserve Account'. A decrease in net book value arising on revaluation of fixed assets is charged to Income and Expenditure accounts.
- Expenditure in the nature of repairs and maintenance incurred to maintain the asset and sustain its functioning or the benefit of which is for less than a year, is charged off as Revenue Expenditure.
- Assets recorded in the register but not physically available is written off after a period of five years.

SIGNIFICANT ACCOUNTING POLICIES AND NOTES TO ACCOUNTS

- Lands that are acquired free of cost from the government or provided by individuals or institutions under endowment for specific purposes are priced at a nominal value of Re 1 as a symbolic cost. Where the ownership of the lands has not been transferred in favor of the ULB, but the land is in the permissive possession of the ULB, such lands is included in the Register of Land at nominal value. Cost of developing such vested lands, if any, is booked under the subhead 'land'.
- All lands that are under encroachment and belonging to the ULB and where it is not possible to have the land evacuated, appropriate provision is made on the cost of land. If the encroachment is for more than two years, provision equal to ninety percent (90%) of the carrying amount is made.
- Parks and Playgrounds is capitalized under two categories: (i) Land pertaining to Parks and Playgrounds including the cost of development of land that is booked under 'Land', and (ii) other amenities to Parks and Playgrounds is capitalized under the sub-head 'Parks and Playgrounds'. However, any building /structures/ plant and machinery etc. constructed/ installed in the Parks and Playgrounds and used for other purposes is booked under the appropriate heads/ sub-heads of assets
- If and when revaluation of asset is carried out, the value assigned upon revaluation of a class of assets does not result in the net book value of that class being greater than the recoverable amount of the assets of that class. Revaluation reserve is reduced by transfer of equivalent amount of depreciation charged on the revalued portion of the cost of the fixed assets.
- Statues and Heritage Assets - Statues and valuable works of art are valued at the original cost and no depreciation is charged thereon. In case, however, the original cost is not available or the items have been gifted to the ULB by some other person/ authorities, a nominal value of Re 1 is taken. Heritage buildings declared through Gazette Notification is booked under this head and is valued at book value/cost of the material date. No depreciation is charged on such buildings. In case of capital improvements after the building has been so notified, depreciation at the normal rate of buildings is charged. Wherever, the book value /cost is not available or the items have been gifted to the ULB by some other person/ authorities, the value is taken at Re 1. (p) Leases and Hire Purchase

Where the ULB is the lessee

- Finance leases, which effectively transfer to the ULB substantially all the risks and benefits incidental to ownership of the leased item, are capitalized at the lower of the fair value and present value of the minimum lease payments at the inception of the lease term and disclosed as leased assets. Lease payments are apportioned between the finance charges and reduction of the lease liability based on the implicit rate of return. Finance charges are charged directly against income. Lease management fees, legal charges and other initial direct costs are capitalized.
- If there is no reasonable certainty that the ULB will obtain the ownership by the end of the lease term, capitalized leased assets are depreciated over the shorter of the estimated useful life of the asset or the lease term.
- Leases where the lessor effectively retains substantially all the risks and benefits of ownership of the leased item, are classified as operating leases. Operating lease payments are recognized as an expense in the Profit and Loss account on a straight-line basis over the lease term.

Where the ULB is the lessor

- Assets given under a finance lease are recognized as a receivable at an amount equal to the net investment in the lease. Lease rentals are apportioned between principal and interest on the IRR method. The principal amount received reduces the net investment in the lease and interest is recognized as revenue. Initial direct costs such as legal costs, brokerage costs, etc. are recognized immediately in the Profit and Loss Account.
- Assets subject to operating leases are included in fixed assets. Lease income is recognized in the Profit and Loss Account on a straight-line basis over the lease term. Costs, including depreciation are recognized as an expense in the Profit and Loss Account. Initial direct costs such as legal costs, brokerage costs, etc. are recognized immediately in the Profit and Loss Account.

Where the ULB is a purchaser under Hire purchase Scheme

- The purchase price is capitalized as the cost of fixed assets.
- Hire Purchase (HP) installments are apportioned between the finance charge and the reduction of the principal outstanding. The finance charge is allocated so as to produce a constant periodic rate of interest on the remaining balance of the liability;
- The total amount of interest portion out of the 'HP Payable' is accounted by debiting to a control account under current assets. This amount is adjusted on accounting of finance charges.
- The depreciation principle for assets purchased under HP is consistent with that for owned assets.

Where the ULB is a seller under Hire purchase Scheme

- The sale price (including the interest portion) is accounted as receivable from HP agreement;
- HP installments is apportioned between the interest income and the reduction of the principal amount receivable (the finance income is allocated so as to produce a constant periodic rate of interest on the remaining balance of the receivable);
- The total amount of interest portion out of the 'HP Receivable' is accounted by crediting to a control account under current assets. This amount is adjusted while accounting for finance charge.

B-21B Notes to Accounts

Use of Estimates

The preparation of financial statements in conformity with accounting guidelines as per NMAM requires municipality to make estimates and assumptions that affect the reported balances of assets and liabilities and also disclosures relating to contingent liabilities as at the date of the financial statements and reported such estimates relied upon includes useful lives of fixed assets etc. Differences between actual result and estimates are recognized in the period in which the results are known/materialized.

Creation of Municipal General Fund

Preparation of Opening Balance Sheet as on 01.04.2008 was the starting point for conversion of the accounting system of municipality from cash to accrual basis and from single to double entry system, which required municipality to determine the value as on that date, of all the assets and liabilities belonging to the municipality. Under the accounting system followed by the municipality so far, no formal ledger was maintained and consequently no balances of assets and liabilities were carried over. Moreover, no concept of Equity/Propriety/Municipal Fund was there in existence. But for opening balance sheet purpose municipality identified assets and liabilities as on 01.04.2008 and excess or otherwise of opening balances of assets over opening balances of liabilities was recognized as Municipal General Fund as per relevant accounting guidelines provided in NMAM.

Grants & Contribution for Specific Purposes: Grant registers has not been prepared / maintained properly as a result we are unable to prepare a reconciliation statement to address the difference. Again Grant Fund was adjusted to the extent the balance available with bank and on the basis of expenditure made during the year.

Realization of debtors: The collection details of Property tax, Samekit kar and Water Tax as per the "demand patrak" (Rs.10089.33 lakhs) does not reconciles with the collection as per cash book (Rs.10153.24 lakhs). Similarly collection details of other income has not been reconciled with the collection details provided by the ULB. As such the closing balance of the receivable also differs to that extent.

Capital work In Progress (CWIP): The CWIP which are noted to be unmoved since last three years, have been capitalized during the year, due to non-availability of information / work completion certificates at ULBs.

Provisions of doubtful debts

As per the information available with the ULB the total arrear income (comprising of property & other taxes and other sources) for Rs.134369695.67 outstanding as on 31st March 2019. The ULB is in the process of compiling the age wise records of all receivables related to assesses and hence the entire amount of outstanding arrear income has been classified under the age bracket of "less than 3 year". As per the NMAM guidelines provision at the prescribed rates (refer table below) is required to be recognized on total arrears of income based on the age analysis. The management is confident of recovery of the entire amount from the respective assesses and hence no provision has been considered necessary in this regard. Necessary
